### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: claims 1, 8, 9 are patentable over the prior art patents and printed publications because of the specific arrangement of the plurality of light-emitting device array chips on a substrate in a straight line or in a staggered layout so as to oppose to a rod lens array, each of the light-emitting device array chips having a light-emitting device array, wherein the rod lens array, the substrate supporting member for supporting the substrate and the driver circuit board are each secured directly to a support member for use as an optical write head, is not taught by the art of record alone or in combination.

Claims 10, 16-18 and 21 are patentable over the prior art patents and printed publications because of the specific arrangement of the plurality of light-emitting device array chips on a substrate in a straight line or in a staggered layout so as to oppose to a rod lens array, each of the light-emitting device array chips having a light-emitting device array, wherein the light-emitting device array chips are mounted directly on a flexible printed circuit sheet interposed between the substrate and the light-emitting device array chips, which is not taught by the art of record alone or in combination.

Claims 2-7, 11-15, 19-20, 22-29 and 30-31 are allowed because they are directly or indirectly dependent from claims 1, 8-10, 16-18 and 21 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
